

# STRIKE !

WE, THE YOUTH OF AMERICA, WHO HAVE THE GREATEST  
STAKE IN OUR COUNTRY'S FUTURE, DEMAND AN EQUAL SHARE IN THE  
FORMATION OF ITS POLICIES.

The war rages on, while the candidates offer only platitudes about an "honorable settlement" and while the youth of this country is coerced into fighting a war with no justification. Economic justice for the many millions of poor Americans is ignored while the candidates speak endlessly and meaninglessly of law and order.

## WHO DO THE CANDIDATES REPRESENT ?

Certainly the recent spectacles in Miami and Chicago show they do not represent the people. They *do* represent the political machines and the monied interests who continue to manipulate our government for their own benefit.

## WHAT IS THE ONLY OPTION LEFT TO US, THE DISENFRANCHISED AND IGNORED MILLIONS OF AMERICANS ?

To voice our indignation and to show those few persons who do control the electoral process of this country that we are deeply concerned, a strike is called. Vote with your feet. Join us.
