

SAVE THE LIVES OF THE VICTIMS OF THE WAR DRIVE !

WILLIE MCGEE MUST NOT DIE !

This is a message to you, the delegates who have come from every corner of our land to win peace and freedom. Even as you converge on the Nation's capitol, to tell the administration that the American people want peace and freedom, an ex G - I, a father of four children faces death on March 20th... unless you act !

Willie McGee is a victim of the Truman jimcrow policies, policies enforced by terror. The fate of Willie McGee and the lives of millions of Negro citizens depend upon the action you take.

The administration's march to war is inseperable from the drive against the freedom of the Negro people. A blow for one is a victory for the other ! And you can help to strike this blow ! ! !

President Truman and the Supreme Court can save Willie McGee, but only the pressure of the people will force such action... The Washington Mobilization To Free Willie McGee asks you to stay over and continue the fight for peace and freedom.

STAY OVER AND PARTICIPATE ...

- ... in the prayer vigil at the Supreme Court, Thursday Nite, 11 P.M.
- ... in the lobby to see your Congressmen and Senators, Friday.
- ... in the vigil at the White House ... 'TILL VICTORY !
