

SCHEDULE OF EVENTS
Washington, D.C.—1969

THURSDAY, Nov. 13 MARCH AGAINST DEATH—A VIETNAM MEMORIAL

After Dark

The first of some 43-45 thousand participants—a number from each state equivalent to the number of U.S. battle deaths from each state, plus a number representing Vietnamese villages destroyed—will step off after dark from Arlington National Cemetery to form a solemn procession moving past the White House single file and on past the Capitol. The procession will continue for some 36 hours though each marcher will complete the 4-mile walk in about two hours. Each marcher will carry the name of a war victim, will call out that name upon passing the White House, and will deposit the name in a coffin upon passing the Capitol. The March Against Death will conclude early Saturday morning with a brief memorial service preceding the mass march.

FRIDAY, Nov. 14

March Against Death continues.

Movement Centers (indoor meetings by constituent groups).
Visits to Congressmen.

SATURDAY, Nov. 15

MASS MARCH ON WASHINGTON FOR IMMEDIATE AND TOTAL WITHDRAWAL FROM VIETNAM

9 am

ASSEMBLY begins. Mall area west of Capitol (3rd St., N.W.)

11 am

MARCH begins. Later contingents will step off through the afternoon. The march will move along Pennsylvania Ave., past the White House to the rally site.

FALL OFFENSIVE TO END THE WAR IN VIETNAM

The New Mobilization Committee to End the War in Vietnam is mounting a Fall Offensive to Stop the War, Stop the War Machine, Stop the Death Machine. It will culminate on November 15 in Washington and San Francisco in what we can make the most significant and largest antiwar demonstrations in American history.

Our efforts to end the war in Vietnam have reached a crossroads—it must be ended or it will rise to new heights of horror and murder. **STOP THE WAR.**

Our efforts to end the arms race and stop the war machine have reached a crossroads—either drastic cuts will be made in the military during the next year, or it will rise to new insanities of terror in weaponry and gluttony of resources. **STOP THE WAR MACHINE.**

Our efforts to end the destruction of our own people, cities, society, and environment by a kind of impersonal but brutal “death machine” have come to a crossroads—either we will take active control over our own lives, our neighborhoods, our very air and water, or see them destroyed before our eyes by the people who control them now. **STOP THE DEATH MACHINE.**

STOP THE WAR

Many times before, we have demonstrated, resisted, confronted, to ask, “Bring the Troops Home Now. Stop the War.” Our demands were right then, they are even more clearly right now. Both the course of political change in America and the course of the war in Vietnam make it urgent: **BRING ALL THE TROOPS HOME NOW!**

The Nixon Administration has pretended to move toward peace. But withdrawing a few troops from Vietnam is a cruel farce. It will not stop the killing. It will not bring peace. It will not prevent other Vietnams.

STOP THE WAR MACHINE

The Administration has changed not one bit the expansionist policy which spawned Vietnam. The United States has treaties to “defend” forty-two nations, and secret military agreements covering two dozen more, including fascist and semi fascist governments. Pentagon bases and a million troops overseas are there to defend governments favorable to American trade and investment and to subvert and overthrow regimes that are unfavorable. The United States today is engaged in a permanent war for the Almighty Dollar.

At home the Pentagon spends \$45 billion a year on procurement. Millions of people have a short-run vested interest in a war like Vietnam—even though in the long run it kills their sons, robs them through inflation and higher taxes so that the average worker's real wage has *dropped* during the war.

And not just Vietnam. Since the end of World War II the arms race has robbed the nation of ONE TRILLION FIFTY BILLION DOLLARS. The Pentagon owns \$202 billion of wealth and as much land as the seven smallest states put together. It corrupts the way we live.

For example:

- Through the draft it dictates the lives, education and occupational choices of young people and it tries to abolish free speech for the men it conscripts.
- It bribes Congressmen with super-pork-barrel contracts and bases.
- The war machine has strengthened racism. It pushes governors and mayors into using helicopters, tanks, rifles and CS to deal with political problems on the campuses and in the Black communities instead of allowing these communities to run their own lives.
- It keeps scientists busy on tenth-generation missilery who ought to be figuring out how to keep our water pure and our air breathable.
- It urges a political repression that tries to put in jail some of our most beloved countrymen.

STOP THE DEATH MACHINE

American society has become a death machine—not only for the poor, for the Black, the Brown, the coal miner suffering from black lung, but also for middle-income Americans facing a shortage of doctors and hospitals; fleeing to escape the decaying cities only to face impossible traffic, impossible interest rates, brutal taxes, debt, built-in obsolescence, ulcer-producing tensions and insecurity and isolation in old age.

The Death Machine is not a gigantic accident—it has operators and they make a profit. They make a profit from *not* making automobiles safe, *not* ending air and water pollution, *not* feeding the poor, *not* cleaning up the coal mines.

We call for this demonstration and rally in Washington and San Francisco on Nov. 15, to *Stop the War in Vietnam NOW*, to *bring all our troops home immediately and in one piece*, to *win free speech and democratic rights for GIs*, to *stop the repression and free all political prisoners*, to *end the draft*, to *end racism in all America and colonialism in Washington, D.C.* We must rescue the nation from the warmakers or there will be no hope of preventing more and more Vietnams; of ending the racist controls over Black and Brown communities; of ending the poisoning of our planet; and worse still, no hope of preventing all-out nuclear war. The immediate objective of our action is to terminate hostilities in Vietnam, but we know that this is only a small part of a long-term effort to create a society committed to Life and Freedom.
