

Washington Metropolitan Area Transit Authority

MEMORANDUM

TO: ALL REPRESENTED EMPLOYEES

DATE: March 5, 1979

SUBJECT: Strikes, Slow-Downs, etc.

It is a violation of the Union contracts and of the LAW for the employees of the Washington Metropolitan Area Transit Authority to strike or engage in any other activity affecting the public service provided by the Authority. Employees who attempt to encourage and/or participate in work stoppages against the Authority will be subject to severe disciplinary action including termination of employment.

Disputes between the Authority and employees must be resolved through the grievance and arbitration procedure, thereby eliminating the need for drastic job action by either the employees or management.

Peter J. Sheehan
Acting Director
Office of Labor Relations
