Volunteers scurry for Honor Day

By JERRY OPPENHEIMER
Manny Ruiz fills the automatic elevator to the sixth floor of the modern office building at 1725 DeSales-st nw.
Off the elevator, red, white and blue signs direct visitors to the Headquarters of Honor America Day, Suite 506.
Inside, young volunteers scurry about answering phones and taking messages—collegiates in pop ties and poplin suits, coeds in delicate sandals and prim dresses, most of them tanned, blonde and blue-eyed, all of them eager.

Arsonists threw home-made fire bombs at the windows of four Latin American embassies early today, causing minor damage to three of the buildings, which were closed today.
The bombings, which took place between 10 a.m. and 1:30 p.m., comprised the third night of vandalism involving Latin American embassies or organizations in the past two weeks. Yesterday a bomb exploded at the Inter-American Defense Board — the military wing of the Organization of American States — and on June 24 the Pan American Union and two embassies were defaced with red spray paint.
The first attack was on the Haitian embassy at 400 8th-st nw, police said.
Nine minutes later a similar bomb was thrown at a second-floor window of the Argentine embassy, 1800 New Hampshire-av nw. That, too, failed to break the glass, landing instead on a balcony outside where it ignited briefly and then went out, police said. Damage was minor.
At 1:01 a.m. a fire bomb was thrown thru a first floor window of the embassy of Uruguay, 1918 F-st nw. That exploded, but damage was confined to one room. Police said a table, chair and a rug were burned.
The last incident, at the Dominican Republic embassy, 1115 22nd-st nw, took place at 1:15 a.m. There, a bomb was thrown thru a first floor window, igniting and damaging a rug and a chair.
Police speculated that the bombings were the work of more than one group because of the timing of the incidents and the distance between them. They could not, however, say any motive for the attacks.
Embassy officials refused to comment early today.
Police and FBI are investigating.
The wave of attacks may have been touched off by a meeting of the Organization of American States which began here June 23. The meeting, which had been postponed and moved twice because of terrorism in Brazil and the Dominican Republic — where the party was originally to have been held — threatened disruption.
In Washington's attack on the OAS's military arm, a home-made bomb consisting of explosive stuffed into a length of pipe damaged a chauffeur's lounge. Officials there could give no reason for that attack, and said it was the first on their organization.
The spray-painting incidents occurred the night before the OAS meeting opened.

OPEN LETTER TO IMPERIALISM

We'll build a new nation

The Inter-American Defense Board was bombed because it is an instrument of the death kultur that rules Amerika. It works hand in hand with the Organization of Amerikan States in suppressing peoples in Latin America in the interest of Amerikan business. All through the Americas, people are on the move against Pigdom. The OAS Conference could not be held in any of the oppressed nations. Now even people in the Imperial Kapital are rising in support of their revolutionary brothers and sisters. We must build a new nation, one with an economy of peace rather than war. We do not seek the conquest or domination of any other people. We need a society that lives in harmony with other peoples and with its environment. We must have a society in which people can work and live cooperatively. We must have a society where ALL people can develop to their fullest potential.

We can no longer tolerate a society which is willing to slaughter millions to prop up puppet dictators. We can no longer tolerate a society where rich men grow richer while millions starve and die. We will smash this society which, having been founded on genocide, continues to oppress and kill non-whites and which forces many millions of women and homosexuals into dehumanized, self-destructive roles.

To build this new nation, we must fight to seize the institutions of our country. We must join together, to learn, to teach and to act.

We, the revolutionary community of Washington must intensify the struggle here in the Kapital of Amerikan Imperialism.

Join us in seizing the time.

All Power to the People

P.S. OAS LOOK OUT.

SWITCHBOARD

Switchboard is back in the Washington Area, with offices at 1724 20th St. NW and 121 S. Asaph Street in Alexandria, Va.

The main function of the Switchboard is to provide the community with information pertaining to the draft, abortion, and legal counseling employment opportunities, housing, and other social services.

The free community has long been in need of an institution that informs its members quickly and effectively by reducing the red tape and delay involved in commercial social service agencies. This was the object of the founders of Switchboard when it was established in 1968 in D.C. From the fall of 1969 until February 1970, the Church of the Pilgrims in Georgetown housed Switchboard offices. After their eviction in February, Switchboard was forced to temporarily disband; since May 1st the Washington Area Free University has been providing Switchboard with money, space, and a good location on 20th Street.

Switchboard of Alexandria was set up in April 1970 specifically to serve the Northern Virginia area. They operate on a 24-hour basis, but with a comparably smaller staff.

Recently Switchboard has been working to expand job opportunities for local people, to provide an answering service and message service for runaways, to start a community breakfast program, and to establish a free moving service for people moving to the DC area.

Presently, one of Switchboard's main concerns is its own financial perpetuation. Through bake-sales and perspective fund raising benefits during the summer. Switchboard is striving to build a better and more informed community. If you have extra bread, problems, or ideas for fund-raising, call Switchboard at 387-5300.

A group of heavy freaks fire-bombed four Latin Amerikan pig Embassies and pipe-bombed one. These attacks were a response to the disgrace of being the only nation in OAS in which the conference could be held, and were a demonstration of solidarity with the struggling people of Latin Amerika.

Wednesday, about 3 a.m. a pipe-bomb exploded in a chauffers room in the Inter-Amerikan Defense Board Building, trashing most of the room. The I.A.D.B.B. is the military arm of OAS, the tool in which the U.S. conducts then justifies, military oppression in Latin Nations when the puppet government fail to protect U.S. corporations, as in the Dominican Republic in 1965.

Thursday again at about 3 a.m. four molotovo attacks were launched consecutively against the Embassies of Argentina, Haiti, Uruguay and the Dominican Republic.

Haiti is the most repressive dictatorship in Latin America. The Dominican Republic is ruled by a U.S. marine-installed puppet; the people of D.R. prohibited a scheduled OAS convention from occurring there, causing it to be moved to the U.S. Argentina is ruled by an openly fascist military junta, which is facing increasing armed resistance from the people, led by Urban Guerrillas. Uruguay is the home of Los Tupamaros, the best known and most audacious of Latin Urban Guerrillas.

OAS cannot meet in the U.S. and be unattacked. The U.S. people have moved to armed attack in support of the Latin people

MAD HIPPIE TERRORISTS ATTACK

BAR-B-QUE PORK

JULY 4

This year, Amerikan Pigdom, led by Bob Hope and Billy Graham, will conduct "Honor Amerikkka Day" on July 4th, with the high hopes of getting 500,000 Pigs all squealing in unison. The symbolism of having Amerika's bourgeoisie gathered together at the national phallic symbol--The Big White Dick-- is very indicative of the chauvanistic-racist attitudes of middle class Amerika.

Decadent Amerika is making a last ditch attempt to unite against the coming storm. Middle class Amerikans are trying to prove to each other that there is nothing wrong with this country. These people are walking around completely oblivious to the shit coming down on their heads and the heads of their fellow Amerikans, as well as Amerika's rape of the Third World. These are the blind who must either be shown the way or smashed.

Providing a useful contrast to these bourgeois pigs is the smoke-in on the mall July 4th, lasting from dawn until everyone is flying high. With the help of many area dealers and other freaks there should be enough dope for approximately one million joints; however, this doesn't mean you shouldn't bring your own.

There will be little chance of any busts due to the amazing number of people expected. Undoubtedly several plainclothes oinkers will be crawling through the crowd. These pigs should be considered armed and dangerous, and have to be dealt with. Since they are generally morons they may attempt to bust someone. The worst thing to do in a bust situation is to remain apathetic: if you find yourself or someone else getting ripped off by the pigs, defend yourself and your brothers and sisters. Physic-

uation like this, but there will be thousands of comrades to assist you.

The night of the 4th will not only see fireworks at George's Prick, but also in the streets. Demonstrators will unite in George Washington University at 20th and G Streets NW and once massed will descend upon the streets of D.C. Prime objectives will be street and traffic lights, Banks, corporation buildings, pigs, and embassies; everything but homes and small businesses.

The pigs from the Organization of Amerikan States have met in Washington to discuss ways of supressing the people and keeping them from living like human beings. For example, in Chile and Peru the pigs steal Indians from their homes, force them to eat coca leaves (cocaine), and then work in the fields all day. This amounts to literal enslavement of our fellow human beings. How can we sit back and let the running dog imperialists do shit like this, and retain our humanity?

This is happening all over South Amerika. The people are starving while Big Kapitalist pigs tour their plantations in shiny black, air conditioned, chauffeur driven limosines.

The OAS pigs are scared to meet in South Amerika because the Guerrillas will butcher them. Nine comrades have already died in the Dominican Republic keeping the OAS meeting out, but from their blood will spring a hundred more like them. Already many pigs have been offed--only Monday, June 30, six more were killed.

OAS is killing the people of Latin and South Amerika. We can't and we won't let them continue their seating here! Viva Che. Viva Los

THE WRITING ON THE WALL

Wall painting is one of the most creative forms of expression. Once you get going it's obvious that every wall, billboard, road sign, sidewalk, car, etc. is a gift from the man to us to communicate with each other. Even places you can't reach you can throw a balloon or egg shell at.

In the old days there were pretty much two separate types of wall-painters: the politicians - Smash U.S. Imperialism - and the free-livers - Joan and Jim, Fuck. This is a jive separation - boring wall-paintings are boring, even on the Bank of Amerika. Stimulate rational discourse!

Once you get the urge to go out and talk to some new people, you should make some minimal preparation. First you need some paint. In many stores this is free, in which case you might get high-quality enamel, which shows up better and lasts longer. Day-glo orange is very striking. Know the area you are going to paint, including good walls or spots, dark or light places, and pig hang-outs. Figure out what you're going to say, so you can say it fast and spell it right!

Dress right - sometimes you may want to look straight, often you'll just want to be able to melt into the surroundings. Possibly tennis shoes will come in handy.

OFF OAS!

This was a recent on the wall conversation:
Guns and Grass
Don't Mix
Grass Won't Free Bobby
At which point some pig wiped it all off.

**SEIZE
THE
TIME**

In addition to painting, there's plenty of other propaganda & little shit that uses the same techniques. Posters & some evaporated milk add a refined touch to a window, post or wall.

D.C. WOMEN FIGHT!

**Bashful
Don't
Mix**

Blow people's minds. Put stuff together that doesn't always seem to fit, get people to flash on it; Vietcong Women Carrying guns on a beauty parlor. Or give a little strategy: Fred lives, Pigs Die, Off Slime. Don't be bashful- walls are a public forum.

**OFF
THE
SLIME**

It's best to go out in twos and threes, so there's at least one lookout to check for pigs and uptight people. But most people are no hassle - like pigs rarely drive foreign cars. The best protection is to look natural and act cool - take your baseball gloves and ball or your frisbee, walk your dog, be ready to window-shop convincingly. A woman and a man are natural together, and a woman's purse can hold all kinds of shit. (everybody knows how to whistle or say a pre-arranged code if heat comes).

In fact, painting really need not be a special nighttime outing - many places are easier to visit in the daytime without arousing suspicion. Carry a can to work or school or when visiting friends. Or perhaps, your fancy turns to eating and painting. As the Chairman says, "An army without culture is a dull-witted army."

These people are a basic affinity group expressing their contempt for bourgeois property and telling us something about being happy in ways the state doesn't dig. Maybe in two weeks that heart will become a fist and there'll be five people in the group.

**VIVA
CHE.
CHE VIVA!**

Propaganda should always be about winning. The VC Have Won - Rap is Free. People like to hear good news, especially on pig walls. Don't get carried away with technicalities - Victory to the National Liberation Front of South Vietnam is long-winded and poor security to paint; VC Run It says the same thing.

Free Bobby Seale NOW!

Revolutionary People's Constitutional Convention

On Friday, June 19 the Black Panther Party announced the date and location of the People's Revolutionary constitutional Convention and the opening of a chapter of the Black Panther Party in Washington, D.C. The convention will be held in Philadelphia-the same city where our "founding Fathers" had theirs- on September 7, 1970. On the steps of the Lincoln Memorial, at the feet of Abraham Lincoln (who supposedly emancipated Black People in 1863), the Party declared that either this government enforce their constitution or a more just constitution will be formed of the people, by the people and for the people. Speakers Big Man and Dharuba stressed that under the present constitution there is no justice for Black People, Mexican-Americans, Indians, Puerto Ricans, Women and poor people.

Either this government
enforce the present constitution
or a new one will be formed...
By the people,
Of the people,
and
For the people.

Afeni Shakur of the N.Y. 21 spoke on the railroading of Bobby Seale with a warning to pig Amerika, Nixon, and all his lackies, stating that "if they execute Bobby Seale all 28 chapters of the Black Panther Party will be turned loose, and there won't be any light for days!"

Sister Afeni then dealt with the much discussed women's liberation movement. Women can go on talking about women's liberation, she said, but when that pig comes busting in the door a she's got a .357 magnum in her hand-don't come screaming women's liberation! Afeni challenged the declaration of the Women's Liberation Front to free Joan Bird-meaning that if they are serious they had better do just that.

The Panthers warned the rulers of Amerika that oppressed Americans particularly Black People, are fed up with living in poverty and injustice. If this government doesn't move NOW to serve the people, it will have to face consequences-the armed wrath of the people. Listen Up, Richard Mealy-mouth Nixon!

ALL POWER TO THE PEOPLE

women fight! can you dig it?

Dionne Donghi and Linda Evans are Weatherwomen! This is how any article should begin. It is just as important to make a clear statement about them as white women revolutionaries as it is to say that Joan Bird is a Panther woman, meaning that she is a Black woman revolutionary. We are just beginning to get an understanding of what it means to be a white revolutionary, but it is crucial that we begin to get it together about what it means for white women.

It's interesting to stop and think about what conceptions certain words I have used bring to mind. When I say "revolutionary" I have very clear images of Che or Fidel or Ho. Notice that "revolutionary" most readily connects with male images. When I think of "woman revolutionary" I think of Erika Huggins with her fist raised or of the Vietnamese women with rifles. Note that third world women come to mind. My mental image of white women revolutionaries is not so clear. One picture which comes to mind is of a woman with a fierce grimace, practicing a karate kick. Whenever I look at the Statue of Liberty I think she would be raising a fist and carrying a rifle, but she's just a symbol, and besides, she's green!

But we should dig that white women have begun to define themselves as revolutionaries; we have not really understood the strength of what we have done. All over the country this past year women have led struggles and women have been the vanguard. We've torn up and burned thousands of draft records and bombed the offices of big corporations. We've fought for equal wages and the end of sexism and male chauvinism. Women have fought pigs, gone underground, escaped the law. The women's demos at the House of D and the Cambridge Square gave us strong collective feelings for our sisters. The women's demos at the House of D and the Cambridge Square gave us strong collective feelings for our sisters. The women's actions in Pittsburgh and Chicago showed the strength of women fighting for their politics. Jane Alpert disappeared into the vast reaches of the underground after admitting to a bombing conspiracy. Mary Moylan of

the Catonsville 9 got the Subterranean Homesick Blues and went below after wrecking up a draft board in Baltimore. Kathy Boudin and Cathy Wilkerson escaped from the burning town house not to be found by the pigs. Dionne and Linda were also part of an underground and it is clear that they should be turned loose not primarily because they are pregnant, but because they are revolutionaries and must continue their work. Last week millions of Americans heard the voice of Bernadine Dohrn reading the declaration from the Weatherman underground, and letting us know that she continues to shine as a strong leader and revolutionary.

To understand our strength we must understand what is happening in the world. We see world-wide imperialism maintaining itself by torture and murder, starvation and slavery. But we also see oppressed peoples getting it together to fight back and gain strength through their struggles. Their spirit is beginning to emerge victorious over "The Mans Technology."

This power of retaliation and victory comes from a sense of being able to change ourselves and others, to affect objective conditions, and in seeing ourselves as a force of history rather than being swept along by it. The Cubans and Vietnamese, Huey and Eldridge, Joan Bird and Erika Huggins understand it, Bernadine Dohrn understands it, and all women must begin to get the sense of strength that comes from fighting back. We must begin to fight harder on all levels as the only way to overcome our oppression. The struggles against male chauvinism and imperialism are not mutually exclusive and must be looked at in perspective. We must struggle against our brothers to overcome their chauvinism, but it is absolutely necessary that we struggle along with them in order to smash imperialism. Our strength lies in our ability to come together and join the blacks and Vietnamese who are leading the fight against imperialist pigs. None of us can be free until we are all free. We will not let our oppressed sisters and brothers fight alone. We must realize the power we have to help us all be free. All power to those who fight back.

Dear Sisters,

On April 15th, I had eaten breakfast on the lower East Side with a "friend" who later in the morning was revealed to be an undercover pig. I was walking home, humming spring songs to myself, when twenty or so feds were all around me in the street and they pushed me into a wall. "This is the P.B.I. You're under arrest Linda." I was captured. An hour later Dionne Donghi, fellow Weatherwoman and good friend, was busted by the same undercover pig. I freaked.

I thought all my paranoid nightmares were coming true at once. On the surface it looked like the pigs were totally together and that this was just the beginning of the end -- that we were doomed before we really got ourselves together.

But in fact that day proves in a thousand ways that the feds really don't know what's happening. They had no idea where I lived in New York. They had never followed me or Dionne. By their own admission they hadn't positively recognized me even when they moved in for an arrest. No one I had stayed with during the month I was in New York had been approached for information. All their knowledge was based solely on information supplied to them by this one undercover pig.

I learned that they had assigned 100 special agents just to find the 12 Weathercriminals (besides the hundreds of feds who have been so unsuccessfully hunting the rest of us. Still at large: Pat Swinton, H. Rap Brown, Jane Alpert, Pam Plowdon, scores of Black Panthers, etc. etc.) And yet this elaborate, special network for ensnaring freaks-fugitives of various sorts hasn't produced a single prisoner. (hundreds of us are still free, making them by our very existence gleeful so pigs

Dionne and I were busted by a single clever infiltrator who had survived living in one of our collectives for six months suffered incredible sexual-social-political traumas without flinching, even made it through a two day acid epic-test because people suspected him of being a pig. They got me because of our bad security in the past (while we were an open organization), and because I was careless, trusting other people's evaluations of this motherfucker, rather than following my own head. But I wasn't busted because the feds knew anything about where I was or what I was doing. One single pig, whose cover and usefulness are now blown, is responsible. Our mistake, and bad luck -- but not part of any technological miracle machine that means our ultimate defeat.

So now I'm a prisoner of war, one of the first to be captured. But it is not inevitable or probable that they will capture any more of us. It was never inevitable that any of us would be captured -- only our carelessness caused it. These pigs are really freaked out by all our disappearances, ridiculously incompetent as super-sleuths, and most important, on the wrong side. If we are cool, even in the smallest ways, all the Special Federal Agents in the world won't get any more of the (growing!) hordes of us who are free. OUR STRENGTH IS EACH OTHER -- coming closer and closer together, discovering knowing who we are and what we want, fighting to change or destroy what's wrong and ugly about the world -- for our own freedom. We can change and love each other enough to give us the strength to win. And we will.

Love. Peace.

puerto rico

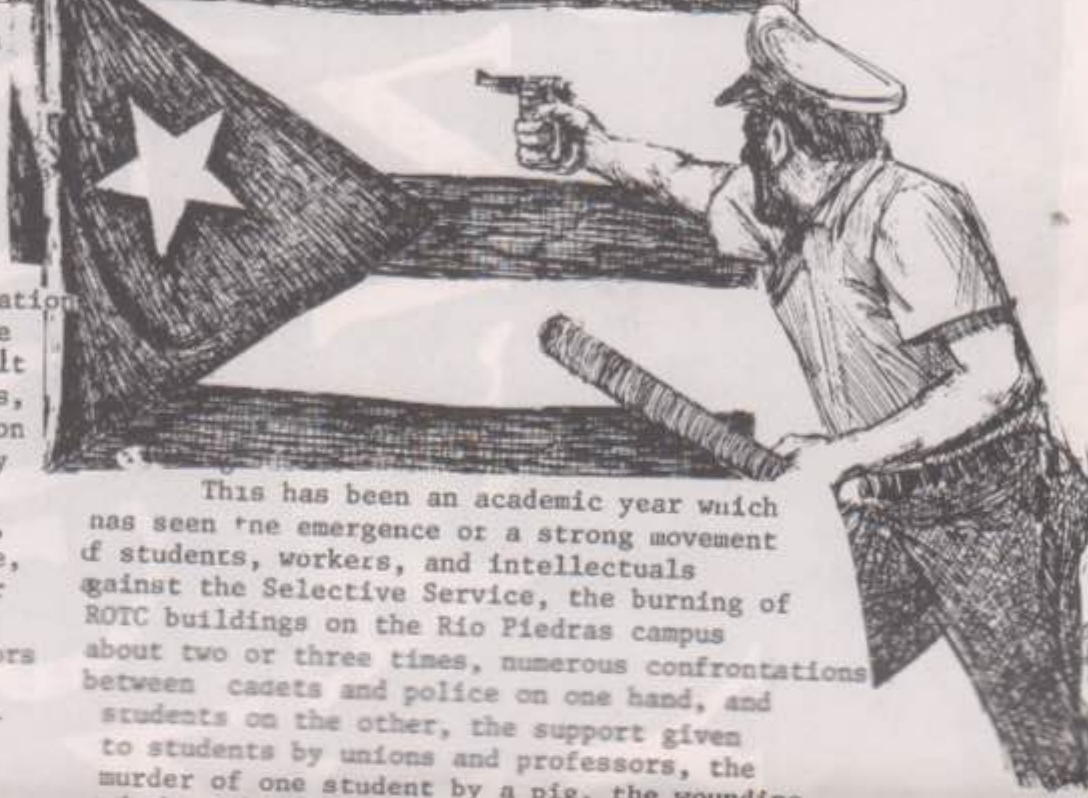

While the students of Kent State, in their racism, returned to docility in the face of four fallen fellow students and played into the hands of the pig power struggle, other students carried on the struggle at the University of Puerto Rico graduation exercises at the Rio Piedras campus.

As in the last few years, the graduation at UPR has been closed to all except those who happen to have an invitation as a result of the administration's fear of riots. This, however, did not stop this year's graduation from being without precedent in the history of this university, although everyone was conscious of the presence of many CIA, FBI, and CIB (Puerto Rican CIA) university police, (with guns and electric blackjacks), regular pigs and ROTC cadets.

As the procession of graduating seniors filed into the university theater, many displayed PR flags (a sign of the anti-imperialist and independentist sentiment), and other flags carried as signs of protest, patriotism, struggle, and wish for freedom from U.S. domination.

Speeches by the campus rector and the academic senate were drowned out by shouts of protest as the speakers were pelted with eggs. Several students were brutally beaten in the struggle. Many seniors, upon receiving their diplomas, threw them into the faces of Benitez (the university president) or Rivera (the campus rector), threw them into the air, and ripped them apart. Students, parents, and professors joined in physical confrontation with pigs, finally sending school officials fleeing from the campus in police-driven cars.

After analyzing the protest, the Marxist-Leninist FUPI (University Federation for Independence) said, "The comrades who did not graduate manifested their irreversible commitment to the struggle in which our people find themselves for their complete liberation. Since they did this, today the enemies of our people are enraged at them, and attack them with all sorts of slander in any way possible."

This has been an academic year which has seen the emergence of a strong movement of students, workers, and intellectuals against the Selective Service, the burning of ROTC buildings on the Rio Piedras campus about two or three times, numerous confrontations between cadets and police on one hand, and students on the other, the support given to students by unions and professors, the murder of one student by a pig, the wounding and head-busting of countless students by pig police and cadet guns, and the criminal charges and summary suspensions of many radical student leaders of the FUPI and especially adventurist Socialist League.

Yes, there was violence and fist-raising in contrast to the quiet and peace signs of Kent State graduation ceremony. This violence is likely to continue and increase as these students and those to come become more and more radicalized, along with ever-increasing sections of the proletariat, and some other sectors of the petty bourgeoisie who are starting to believe in independence, not just through peaceful means, but increasing numbers of whom are ready to pick up a gun. ON the third nite four Latin embassies Haiti, Dominican Republic, Uruguay, ab and Argentina, were molotoved. The pig press attributed it all to pranks. Not so-DC is getting its shit together.

KUCHING, MALAYSIA--Three election officials were killed and four wounded after an attack prepared by the heroic members of the Malaysian underground.

NEW YORK--Three Woolworth stores were fire bombed. This is a continuation of similar acts against Woolworths that began in December.

FRESNO COUNTY CALIFORNIA--A bunch of uptight executives have got together and built a shelter to protect themselves from riots and insurrection.

Washington, D.C.-- Starting off the July 4, festivities early this morning the pigs attacked the crowds of people gathered for the smoke-in with mace, gas and clubs at the Washington Monument. Just more proof that the people of Indochina are winning the battle against imperialism. Other Indochina developments: Eight Amerikan soldiers killed during a Viet Cong attack on a US paratrooper base. LONDON-- The Soviet revisionist clique has suffered another defeat. Oppressed workers of the Moscow Narodny Bank after a struggle with the reactionary management won union recognition and an increase in salary. (See article on Soviet revisionism)

JULY 4th:

In 1776, the North American colonies issued a Declaration of Independence and fought a popular war against British Imperialism. Now, almost 200 years later, the Vietnamese people and black people within the United States (exemplified by leading groups like the Black Panther Party) and oppressed people throughout the world are waging wars against United States imperialism.

What especially points out the hypocrisy in the United States is the fact that Ho Chi Min's Constitution and Declaration of Independence of 1946 is identical to the American Declaration of Independence of 1776 to justify Vietnamese independence from French (now American) domination and occupation. The Black Panther Party's 10 point program for self-determination also rallies behind the Declaration of Independence. Both say the following:

"We hold these truths to be self-evident, that all men are created equal; that they are endowed by their Creator with certain unalienable rights; that among these are life, liberty, and the pursuit of happiness. That, to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed; that, whenever any form of government becomes destructive of these ends, it is the right of the people to alter or to abolish it, and to institute a new government, laying its foundation on such principles, and organizing its powers in such form, as to them shall seem most likely to effect their safety and happiness. But, when a long train of abuse and usurpations, pursuing invariably the same object, evinces a design to reduce them under absolute despotism, it is their right, it is their duty, to throw off such government, and to provide new guards for their future security."

VIETS AND BLACKS UPHOLD JULY 4

While the Vietnamese, black people and all other nationally oppressed people are upholding the principles of July 4, the United States has violated countless laws, including its own constitution, in order to subjugate these people. The constitution holds treaties ratified by the Senate, such as the United Nations Charter's prohibition against unilateral invasion of other countries, to be "highest law of the land", but the racist ruling circles have seen fit to murder, napalm and slaughter over half a million Vietnamese and condemn the rest to concentration camps, disease, maiming and starvation. Not only is there no treaty obligations to support the Saigon dictatorship, but the U.S. signed a statement saying that it "would not use force or the threat of force" to bypass the Geneva Accords of 1954, which promised peace, self determination and free elections to Vietnam. The U.S. has entered into a war without a constitutionally-sanctioned declaration of war and has violated the International Geneva Convention code of

warfare, which banned the use of shot-guns, tumber bullets, types of anti-personnel fragmentation bombs, and chemical and biological warfare. Such violations to carry out genocide of an oppressed nation is absolute despotism and fascist imperialism of the most monstrous proportions.

The racist ruling circles are not satisfied with dominating, exploiting and slaughtering the people of Asia, Africa and Latin America, but have violated even their own constitution to murder, exploit and initiate genocide against the black colony. While the Black Panther Party is upholding the principles of July 4, the hypocrite pigs have made illegal raids on 15 party offices across the country, murdered over 30 Panthers, kidnapped and held for ransom over 500 panthers and removed the original central committee through imprisonment, exile or death. The offices in Oakland and Chicago have been subjected to all-out military attack and the N.Y. 21, New Haven 9, and Baltimore 12 have been arrested on trumped up charges of arson and murder. The party in particular and black people in general have been denied their elementary rights according to the Constitution of 1787. They have been denied trials by juries of their own peers, have been put in prison without legal counsel, subjected to unreasonably high bails and cruel and unusual punishment. They have been denied their rights of speech, press and right to bear arms in self-defense. Nowhere have black people received "equal protection of the laws" and it is obvious that black people cannot get fair trial anywhere in this country. This is a state of war.

CONSTITUTION SUBVERTS JULY 4

While at first it may appear that all this oppression would be alleviated by enforcing the constitutional guarantee and bill of rights, an analysis of the basis of the constitution of 1787 reveals that the constitution actually institutionalized this oppression and is subversive to the July 4 principles of the Declaration of Independence. Federalists Paper Number 10 by James Madison, written in 1787 to establish the basis for the constitution, clearly reveals how the constitution was engineered to insure rule by a rich minority over the interests of the majority, and that the government should be a "republic", not a democracy. Madison, an advocate of such a system, wrote:

"Among the numerous advantages promised by a well-constructed Union, none deserves to be more accurately developed than its tendency to break and control the violence of faction... By a faction, I understand a number of citizens, whether amounting to a majority or minority of the whole, who are united and actuated by some common impulse of impulse of passion or of interest, adverse to the rights of other citizens, or to the permanent and aggregate interests of the community... But the most common and durable source of factions has been the various and unequal distribution of property. Those who hold and those who are without property have ever formed distinct interest in society.

Those who are creditors, and those who are debtors, fall under a like discrimination. A landed interest, a manufacturing interest, a mercantile interest, a monied interest, with many lesser interests, grow up of necessity in civilized nations, and divide them into different classes, actuated by different sentiments and views..."

Can there be any doubt that the "violence of faction" which Madison would like to control is any other than the classical Marxist class struggle, the irreconcilable antagonism between the classes? Marx himself, writing the Communist Manifesto 61 years afterwards, could hardly have described it clearer, although Marx, unlike Madison, sided with the people.

Madison continues:

"A pure democracy...cannot cure faction because a common interest will be felt by the majority of the whole and there is nothing to check the inducements to sacrifice the weaker party...Such democracies have even been...incompatible with...rights of property...A Republic, i.e., the scheme of representation, promises the cure for which we are seeking... Either the interest in a majority at

it is the creation of "order", which legalizes and perpetuates this oppression by moderating the conflict between the classes...The state is a "special repressive force"...and from it follows that the "special repressive force" for the suppression of the proletariat by the bourgeoisie, of millions of toilers by handfuls of the rich, must be replaced by a "special repressive force" for the suppression of the bourgeoisie by the proletariat (the dictatorship of the proletariat).

(The State and Revolution, V.I. Lenin, pages 8,20)

CONSTITUTION REJECTS DEMOCRACY

Madison achieved his desire for a republic rather than a democracy in form as well as content. Article 4, Section 4 of the U.S. Constitution declares: "The United States shall guarantee to every State in this Union a Republican Form of Government, and shall protect each of them against invasion; and on Application of the Legislature, or of the Executive (when the Legislature cannot be convened) against domestic violence." Nowhere in the constitution is "democracy" referred to or called for. Based on the Founding Father's definition, the Constitution is engineered to give the rich minority control of the government.

Madison is candid enough to admit that such a property-owning class dominated government would be biased, corrupt and unjust:

"No man is allowed to be a judge in his own cause, because his interest would certainly bias his judgement,

and, not improbably corrupt his integrity. With equal, nay with greater reason, a body of men are unfit to be both judges and parties at the same time; yet what are many of the most important acts of legislation, but so many judicial determinations, not indeed concerning the rights of large bodies of citizens? And what are the different classes of legislators but advocates and parties to the causes which they determine?" Is a law proposed concerning private debts? It is a question to which the creditors are parties on one side and the debtor on the other. Justice ought to hold the balance between them. Yet the parties are, and must be, themselves

The way to insure the power of this corrupt government, which Madison frankly advocated, would be to institutionalize "representatives" and centralize power over the whole United States so that the divided and Propertyless majority would always be manipulated into electing the propertied minority. Madison says:

"It clearly appears that the same advantage which a republic has over a democracy in controlling the effect of faction (read "Class Struggle") is enjoyed by a large over a small republic, - is enjoyed by the Union over the States composing it...

Extend the sphere, and you take in a greater variety of parties and interests; you make it less probable that a majority of the whole will have a common motive... or if such a motive exists, it will be more difficult for all who feel it to discover their own strength and to act in unison with each other... where there is a consciousness of unjust or dishonorable purposes, communication is always checked by distrust in proportion to the number whose concurrence is necessary... The influence of factions leaders may kindle a flame within their particular states, but will be unable to spread a general conflagration through the other States... A rage for paper money, for an abolition of debts, for an equal division of property, or for any other improper or wicked project, will be less apt to pervade the whole body of the Union than a particular member of it."

FINISH THE WAR NOW!

In short, the U.S. constitution of 1787 institutionalized capitalism which was consistent with slavery and genocide of the Indians, and has now grown to institutionalize world-wide imperialism, genocide against the Vietnamese and fascist repression of black people. The constitution was written by a handful of pigs, slave-owners, financiers who conspired to take over the government for their own ends. The Federalists Papers, which forms the ideological basis of the constitution, was written and distributed secretly only to wealthy people at the time and was not made public until the pigs had already seized power. The unpopularity of the Federalists was made apparent by Shay's Rebellion of 1786, when Revolutionary War soldiers and debt-ridden farmers revolted and were put down by the Federalist-controlled army. This was the betrayal of the principles of July 4 by the constitutional conspirators.

Let, therefore, the United States constitution be exposed for what it is: Capitalist - and it uses this economic system to justify the fascist exploitation of people throughout the world, particularly people of color-racism. This racist capitalism is treason against the spirit of July 4.

Let us, accordingly, rededicate ourselves to the principles of the Declaration of Independence and wage a revolutionary war against imperialism. Let this be our Declaration of War for the overthrow of the Constitution of the United States by any means necessary.

PIG MADISON VINDICATES MARX

The "scheme of oppression" Madison is talking about was described by Marx 60 years later: "According to Marx, the state is an organ of class rule, an organ for the oppression of one class by another;

the judges; and the most numerous party, or in other words, the most powerful faction must be expected to prevail... The apportionment of taxes on the various descriptions of property is an act in which seems to require the most exact impartiality; yet there is, perhaps, no legislative act in which greater opportunity and temptation are given to a predominant party to trample on the rules of justice. Every shilling with which they overburdened the inferior number is a shilling saved to their own pockets."

TOWARD A SECOND RUSSIAN REVOLUTION

In any discussion of Communism the question is raised about the position of the Soviet Union in its relations to Third World revolutionary struggles and its increasingly capitalist economic policies at home. The Soviet Union is considered by revolutionaries everywhere as revisionist. Chairman Mao has repeatedly exposed Soviet revisionism and outright imperialism - the bourgeois press calls this the "Sino-Soviet Split" - we call it unmasking the usurpation of the leadership of the Soviet people's government by the bourgeois cliques of Krushchov, Brezhnev and Kosygin.

The purpose of this article then is to clear up any misconceptions and confusion that many brothers and sisters have about the development of the present situation in the Soviet Union.

Revisionism as a movement developed within the German Social Democratic Party in the 1890's, its most prominent figure being Edward Bernstein. Bernstein's revisionism was based on his rejection of the basic principle of Marxism - the necessity for an armed uprising of the proletariat. He believed that socialism could be obtained the use of bourgeois parliaments. The core of all revisionist doctrine is that socialism does not come about through armed struggle - that there can be revolution without the gun.

Lenin, the founder and leader of the Bolshevik Party, once said that he had spent his entire life fighting against "revisionists, philistines and renegades". It is somewhat confusing for brothers and sisters to deal with the fact that now the first socialist country founded by Lenin is itself revisionist. But there were several historical reasons why this occurred which we can understand and our comrades the Chinese people have understood to prevent its development in their own country.

In 1924, with Lenin's death and the end of the Civil War, resulting in the defeat of the White Army (supported by U.S., British and Japanese troops) and the victory of the Red Army, the Soviet Union found itself the only socialist country in the world and was faced with hostile powers on all sides. To protect the Soviet Union's positions and to enable it to play a role in supporting national liberation struggles, the Communist Party, under the leadership of Joseph Stalin, turned toward a policy of "socialism in one country". Socialism in one country meant that in order to build revolution in the rest of the world the Soviet Union must first have a strong base which would be invincible against an impending invasion by those who wished to restore capitalism in Russia. Trotsky, on the other hand, supported a suicidal attempt at building worldwide revolution without a strong base. And on this point history has proven Stalin correct. In her book, *The Stalin Era*, Anna Louise Strong, the American supporter of the people's revolution in China, has said:

"The Stalin era built not only the first socialist state and the strength that stopped Hitler. It built the economic base for all those socialist states today in which are one third of mankind; it built the surplus which can give to the ex-colonial peoples of Asia and Africa the freedom to choose their development in open market. It, thus has built a base on which can grow the variety and freedom of the many nations and their unity in lasting peace. The evils of that era came from many causes - from Russia's past habits, from pressure of hostile encirclement, from Hitler's Fifth Column, and in part from the character of the man who led it. As far as any individual may claim the events he led, Lenin made the Russian Revolution, Stalin built the world's first socialist country."

During this phase of development of Russia's socialist economy many grave errors were committed. Stalin was responsible for the return to the policy of "Russification" - something that Lenin had warned against. Under

this policy the main leaders of all the republics were Russians instead of coming from the dominant nationality group as they did while Lenin was alive. No justification can be made for the mass murders under Stalin. The atmosphere created during the necessarily frantic building of the industrial revolution was one of fear of criticizing the Communist Party. Party meetings were no longer filled with debate. Over the years a huge bureaucracy developed implementing capitalism and divorced from the masses of the people - a phenomena which can occur, as Chairman Mao has said, if there is not continuous class struggle and revolution within a developing socialist country. An ordinary Soviet citizen said with deep feeling:

"If only a cultural revolution had been carried out in the Soviet Union, things would not have been what they are now." He added resolutely: "All those who have usurped the Soviet Party and state leadership and taken the capitalist road must be liquidated."

A teacher told Chinese comrades: "Brezhnev, Kosygin and their like curse the Chinese Red Guards because they are opposed to the restoration of capitalism. What you Red Guards have done is simply marvelous! Brezhnev, Kosygin and their like are all no good and are opposed by the 200 million Soviet peoples."

Blatant revisionism has developed in all sectors of the economy under the leadership of Nikita Krushchov and his successors. Khrushchov's "new economic system" has turned into a state policy of imitation of the methods of capitalist management of the United States. The "new system" puts profits above everything else thereby destroying the socialist gains which the Soviet people have fought hard for for decades. The "new system" has completely disrupted the socialist relations of

production and is thoroughly breaking up the socialist economic base. Instead of a unified economic planning by the state, profit is set above all. Enterprises are authorized to decide independently on their production and management plans and are given free rein to seek high profits as in capitalist enterprises. As a result the managers of the enterprises are getting more and bigger privileges and endow them with the power to oppress the workers - reducing them to the same position they were in before the revolution! In search of profit bourgeois managers practice deception, use inferior materials and raise prices by secret means. For instance, the State Ball-Bearing Factory of Minsk was unwilling to increase the precision of its 14mm. ball bearing by 1 degree though this would increase its durability by 20%. To do this the factory would have had to increase its annual expenditures by 30,000 roubles which would have meant less profit so the manager was against it!

The ruling clique of Brezhnev and Kosygin has lifted restrictions on agricultural prices and has created a further relaxation of restrictions on the distribution of private plots of land and private livestock. They issued orders instructing various localities to issue loans to individuals, provide them with livestock, pasture lands and fodder, help them till their private plots and transport their products. "Free" markets have developed under the control of private managers who engage in speculation, demand cut-throat prices and practice all sorts of swindling. "State-owned" stores are poorly stocked, the vegetables are rotten, thereby forcing the people to buy increasing amounts of food at high prices from the "free" markets.

The profit seeking of bourgeois managers in collaboration with the revisionist ruling clique, has caused the

working conditions of the people to crumble - sanitary facilities are lacking, there are shorter lunch hours and work places are in dangerous and decrepit conditions. Bourgeois elements - "factory directors", "academics", and "managers" claim high salaries - 6,500 roubles a month while the broad masses of workers get only 60 - 70 roubles per month. With the implementation of the "new system" the principal of socialist distribution "from each according to his ability, to each according to his work", was entirely discarded. A small handful of men of the privileged stratum gets richer and richer while the broad masses of Soviet people becomes poorer and poorer.

It was Khrushchov who usurped Lenin's original concept of peaceful co-existence which is now used to mask the Soviet ruling cliques' revisionism. Economically "peaceful co-existence" means that foreign companies representing bureaucrat-monopoly capitalism are being allowed to invest large amounts of capital in Russia in exchange for the "right" to exploit its much eyed and bountiful natural resources (supposedly owned by the Soviet people). The Soviet revisionist clique is allowing foreign monopoly capitalists to reap huge profits at the expense of the Soviet people. This is far beyond the Marxist-Leninist principal of peaceful co-existence.

Clearly "peaceful co-existence" represents the clique's planned move to pacify the United States and to sabotage the Third World's struggles against US imperialism. The slogan is used to tone down the blatant imperialism of the United States and to cover up the Soviet Union's own acts of imperialism.

The Soviet ruling clique, is not playing an active role and in many instances is playing a reactionary role in its relation to oppressed people's struggles for national self-determination. Despite the fear of political repression, a Ukrainian worker said: "We firmly oppose imperialist wars of aggression. We support the Vietnamese people's war against US aggression and for national salvation and all other just wars." They voiced their strong opposition to the clique's revisionist view of opposing all wars.

Just recently the revisionist leaders refused to grant recognition to the government of Prince Sihanouk in Cambodia--a government which represents the people and not some puppet regime propped up by the US. The clique has refused to settle the boundary dispute between itself and China--the land, now under their control, belongs to China and had been seized by Russian troops. In the Middle East the Soviet clique is content with arming the reactionary Arab ruling class which does not represent the Arab people and is the sworn enemy (second only to International Zionism and US imperialism) of the Palestinian Liberation Front.

As if this is not enough, the Soviet revisionist ruling class has begun a foreign aid program with the fascist dictatorship of Spain and is discussing recognizing the government of Franco. This is being done despite the muffled protests of Dolores Ibarruri, the heroine of the Spanish Civil War, who fled to Moscow after the defeat of the socialist forces. It seems the renegade clique of Brezhnev and Kosygin have forgotten the days when the Soviet people played a vanguard role in the fight against fascism. They have recognized the oppressive government of Greece with its ties with the CIA and have started a foreign aid program with the fascist ruling class of Greece.

It is clear that the leadership of the the Soviet Union has been usurped by bourgeois revisionists but we must realize that the Soviet people are still an integral part of the international revolutionary struggle for liberation and self-determination. As we intensify our own struggles for liberation inside Amerika in solidarity with the Black liberation struggle at home and the struggles of oppressed peoples internationally, we must have faith in the workers and peasants of the Soviet Union to rise up again just as they did in 1917 to throw off their oppressors. Comrade Mao, Beloved leader of the Chinese people has said;

"The socialist system will eventually replace the capitalist system; this is an objective law independent of man's will. However much of the reactionaries try to hold back the wheel of history, sooner or later revolution will take place and will eventually triumph."

"The Soviet Union was the first socialist state and the communist party was created by Lenin. Although the leadership of the Soviet Party and state has now been usurped by revisionists, I would advise the comrades to remain firm in the conviction that the masses of the Soviet Union people and of the Party members and cadres are good, that they desire revolution and that revisionist rule will not last long."

The ruling cliques of the two large white oppressor nations, the US and the USSR are prompting a race war (in Amerika, against the Black Panther Party and against Black people in general, in the USSR against all non-Russian nationalities) and an international race war against the peoples of color. Only through struggling in solidarity in the Mother countries and in the Third World can this disastrous war be prevented.

Long live the victory of the People's war!

D.C. LEGALIZATION OF CRIME BILL

As all Brothers and Sisters should know, the Pig League of Amerika (congress) is moving backward at desperate speed to legalize the killing and deprivation of rights of the people of D.C. (Death City, and other internal colonies. The people are: the Black community, discontents, activists, revolutionaries and other ill-favored minorities. The pigs of upper & outer N.W., S.W. race displacement area, and Pig Hill (Capitol Hill) are not included since they will remain prosperous and unaffected by the bill, following the age old bourgeois law that says animals of the same species don't kill each other - pigs don't off other pigs.

This flow of reactionary diarrhea that comes from the bowels of the shit-eating, slimey pig-monster is the most raw-natural, true to form piece of legislation it has plopped yet. The pig structure has resolutely defied the formula for eliminating crime which is to correct the causes of crime. These causes are: a) the development of mechanisms of exploitation which deprive the masses of their material goods and their further enslavement by b) a steady diet of metaphysics and bullshit lies fed to them through the pig owned and operated schools and pig media which alienate and confuses them and which prevents them from discerning the causes underlying the contradictions between the poverty of 18th & T Streets and the high-walled, steel-gated, dog-patrolled Hilton Hotel two blocks away. This alienation, confusion, and need manifests itself in the indiscriminate and ineffective ripping-off of material wealth rather than effective political action based on the correct analysis of the causes of their own oppression. The pigs continue to ignore these conditions (naturally, its to their profit to pretend blindness), and only seek to maintain their hold by force as more and more oppressed people learn the causes and how to deal with their oppression from the

Black Panthers, ad hoc community organizations, and through self-determination. What it boils down to is that the people of D.C. are the monkeys in an experiment to determine the best method of controlling the masses as these racist fucking fat-slob pigs steal more and more from the people.

The snivelling oinkers are indiscriminate in their trampling of the people's rights in carrying out their decadent and perverted

scheme. The proposals in the Crime Edict are so blatantly unconstitutional that it is obvious the pig structure has finally abandoned the constitution in their headlong rush to become the U.S., Inc. "World's Deadliest Reaser."

The plot is concealed by the fucked-up & down pig-scum liberals who have again tried to dupe the people and have duped the bourgeois by emphasizing that the fight is between the senate and the house and not the people and the pigs. Further, these flea-carrying slime support the senate version as the less oppressive just as a kindly slave-keeper was considered humane. Both versions of the edict have passed their irresectable houses and the two bands of scavenging, slobbering porkers are now cutting up the cake behind locked doors obstructed by greedy, squealing, shit-eating, smelly, trichina-fucked porky pigs. If one thinks that locked doors are insignificant or that the Pig League does not plot with clear intent, out and out exploitation and oppression remember that Hitler slaughtered 6 million with com-

plete cooperation and secrecy (complicity).

THINK MOTHER FUCKER - ACT

The racist nature of the Edict and the city demography is evident when you compare a sampling of the foes and fors. There are two police wives associations connected with MetroPol; one is Black and composed of the residents of D.C. only, the other is white suburban fugitives. The Black women's organization is adamantly opposed to the edict; the white women's group is ardently in favor of racist oppression and genocide.

The only progressive thing about the Edict is the united and enthusiastic opposition it has fostered in the Black community. The primary moving force has been the D.C. Coalition Against the Crime Bill with an open and free or rather sketchy bureaucracy using one policy, expressed in the slogan: "Stop the Crime Bill." Support ranges from the Panthers to some liberal suburban groups. The Coalition moves among the people gathering support through leafletting, street corner gathering, using bullhorns, mass rallies, and petitions. The high points in their struggle with the decadent system have been a demonstration gathering 200 blacks and whites on the Capital steps and a separate unsuccessful attempt to enter the pig pen to have a say about the cake, at which time they were revulsed by the stench of decaying pig shit and filthy blood-dripping porkers.

John Carter, chairman of the coalition, says the aim of the coalition was and is to stop the Edict. John and others are not fooled though as they realize that if they stop the Edict the Pig League will try to use other low down, filthy means of oppression and that their fight has just begun. The most important function of the coalition is as an active force in the community serving to spark the latent revolutionary spirit of the people by recruiting new members from the ranks of the previously uncommitted and initiating them into a confrontation with the racist pig-fucked-up system which will inevitably lead to the development of a revolutionary consciousness!!!

APOLITICAL INTELLECTUALS

One day
the apolitical
intellectuals
of my country
will be interrogated
by the simplest
of our people.

They will be asked
what they did
when their nation died out
slowly,
like a sweet fire,
small and alone.

No one will ask them
about their dress,
their long siestas
after lunch,
no one will want to know
about their sterile combats
with "the idea
of the nothing"
no one will care about
their higher financial learning.
They won't be questioned
on Greek mythology,
or regarding their self-disgust
when someone within them
begins to die
the coward's death.

They'll be asked nothing
about their absurd
justifications
born in the shadow
of the total lie.

On that day
the simple men will come,
Those who had no place
in the books and poems
of the apolitical intellectuals,
but daily delivered
their bread and milk:
their tortillas and eggs,
those who mended their clothes,
those who drove their cars,
who cared for their dogs

and worked for them,
and they'll ask:
"What did you do when the poor
suffered, when tenderness

burned out in them?"

Apolitical intellectuals

you will not be able to answer.

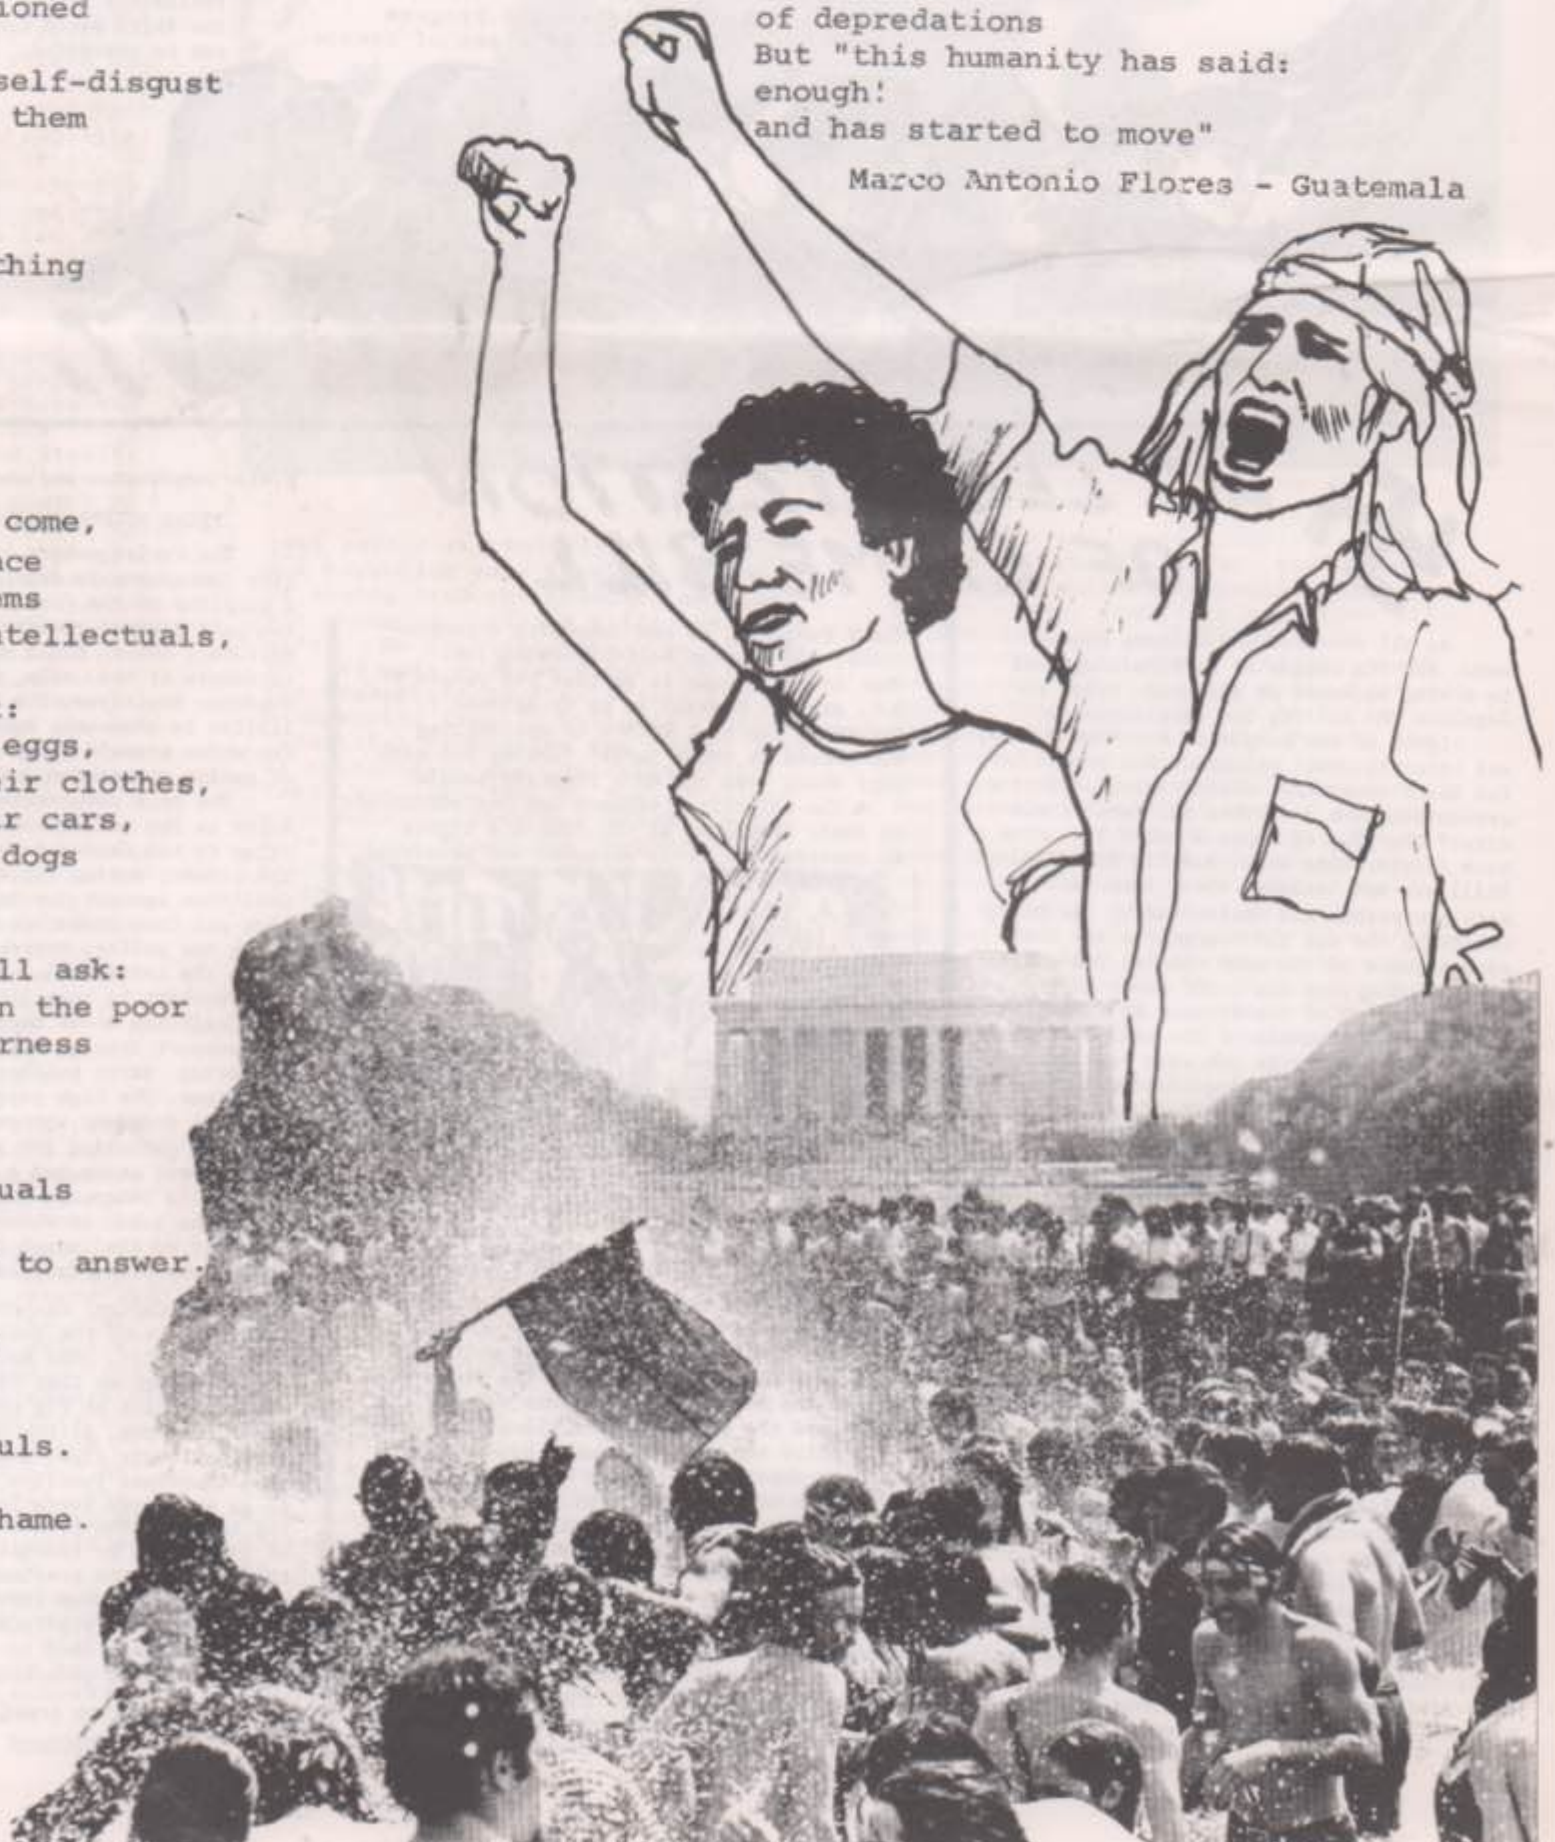

A vulture of silence
