

ALL POWER TO THE PEOPLE

Do you feel that the major political, educational, cultural, economical worldly events are passing you by...maybe it's because your a WOMAN. WOMEN, what is your role in the POWER struggle? Who has the POWER and why? Whether you know it or not the oppressed people of the world, especially the United States, are engaged in a major revolutionary struggle for POWER.

WOMEN must organize to oppose the racist capitalistic system with its power elite. WOMEN have been left out of the power structure -the capitalistic system-the same as Blacks and other oppressed peoples.

ALL POWER TO THE PEOPLE

The biggest war of our lives is going on...we must overthrow our enemy. We WOMEN must be strong so that we can destroy the enemy on the same ground "he"-notice I say he-destroys us. We have no political POWER and we must change that immediately!!!

The white man will laugh as he has done throughout history at these truths. He will destroy all of us bearing no exceptions. It was through his stupidity that wars were started, people of color were pushed back, even the original inhabitants, the Indians. His so-called greatest invention, democracy, is only oppressive capitalism in which one can buy democracy.

WOMEN, especially white WOMEN, are insulted daily by these sissy's errors and mistakes. White men are power hungry pigs, and WOMEN, all WOMEN must stop them by any possible means. We must get our heads together and see the enemy as he is...sick, sick, sick....

ALL POWER TO THE PEOPLE

The life of a WOMAN must be that of reality, never forgetting who the enemy is and what he stands for. There is no time to "trip out" or "goof-off" because in this state we will become more imprisoned.

The first step is learning to defend yourself. Exercise the right to carry any arms the fascist government has not taken away from you. This does not leave much so stand up and ask why the only people who can carry guns are the pigs. Learn karate...WOMEN be strong physically and mentally.

ALL POWER TO THE PEOPLE

There is a war going on, don't find it out too late. Support the few men who are really fighting the fucked up system....YOUNG LORDS, BLACK PANTHERS, and the YOUNG PATRIOTS. Know your allies but most important know your enemy!!!
