"If the government won't stop the war, we'll stop the government." Each region or national constituency group will have assumed the responsibility of interfering with the functioning of specific bridges, traffic arteries, or government buildings during the 7-9:30 a.m. rush hour. The manner in which this is to be done will be determined by each group, but the overall discipline will be non-violent, the tactic disruptive, and the spirit joyous and creative. We strongly discourage random acts of violence or the trashing of property in Washington. All actions will take place in the white controlled Federal areas, i.e. south of Massachusetts Avenue so as not to interfere with the black community.

As part of a national moratorium on business as usual, we will march on and encircle the Capitol building, insisting that Congress must stay in session until it has ratified the People's Peace Treaty.
