

## Dealing With the Draft

All young guys here in Prince George's County are faced with the draft. Most of us don't want to go. A lot of us don't like the idea of going to Nam to fight in an unpopular war. Others of us aren't sure about the war either, but are more worried about disrupting our families or jobs. Some guys can get out for a while by going to college, but many of us can't afford it or just don't feel like going. Rich kids can afford fancy lawyers or doctors to keep them out, but most of us here in P.G. don't have that kind of money. BUT THIS DOES NOT NECESSARILY MEAN WE HAVE TO GO IN THE ARMY! The draft law is complicated, but it is a known fact that at least 50% of all young men faced with the draft can get out by knowing their rights. We can't depend on Local 55 in Hyattsville to do this for ~~us~~ you. We must be armed with knowledge.

If you want assistance in dealing with your local board, we can help counsel you. The time to know your rights is now.

Please call for an appointment.
