

TO BE AGAINST THE WAR IN VIETNAM AND TO DO NOTHING IS INDEFENSIBLE

Nearly 600,000 persons have been killed in Vietnam in the 1960's. Countless thousands of others have been maimed, have suffered terror and anguish, are orphans, are homeless. Each day more die, many more suffer. Each day valuable resources of the Vietnamese and American peoples literally go up in smoke.

Are you one of the many Americans who think that it is time to bring this war to an end NOW, that it is time for Americans to leave it to Vietnamese to settle their own political destiny without our "help"?

WHAT CAN YOU DO TOWARD FURTHERING THE EFFORT TO STOP THE WAR?

The George Mason College Moratorium Committee is searching for ways to help expand the anti-war movement in Northern Virginia. We want to encourage individuals and groups to step up their involvement in constructive action to end the war and we invite them to coordinate their involvement with ours for maximum effect.
